# KZ 1012-01

## Technical data KZ 1012-01

D Value (kN)	King pins (D)	Series	Approval (ECE)
162.0	2"	KZ 1008; KZ 1010; KZ 1012	E1 55R-01 01 45

### Attention!

The national regulations and the JOST installation and operating instructions need to be observed when installing, converting and replacing king pins.

### Play it safe!

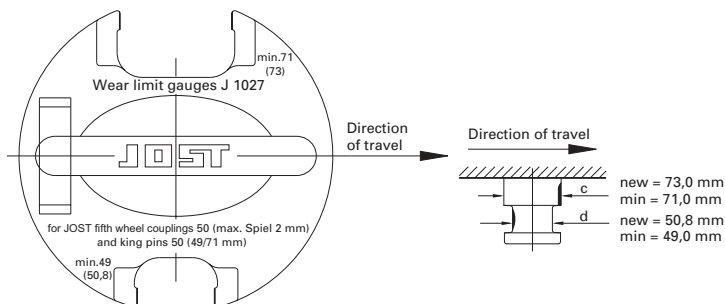

Always use JOST original spare parts to guarantee safety on the road. Always check our packaging with QR code and forgery-proof hologram when purchasing JOST original spare parts. This ensures that you are really receiving JOST quality! We recommend only using the screws once to ensure the highest level of safety.

### Accessories

#### Wear limit gauge – J 1027

- A test gauge for everything – not only for the fifth wheel coupling locking mechanism, but also for the king pin
- Simplifies the wear and tear examination and saves time
- Lightweight and easy to handle

### Design

Article number	designation
J 1027	wear limit gauge for 2"
J 1044	wear limit gauge for 3 1/2"
